* The door and/or drawer front center panel on Maple painted doors may be constructed of Medium Density Fiberboard (MDF), except on the Whittaker door style, or when Distressing or Heirlooming is specified.

SATIN SHEEN

(Top portion of door)

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

MATTE SHEEN

(Lower portion of door)

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

DISTRESSING

Unique imperfections like wormholes, chisel marks and tiny dents and dings replicate the wear found on a well-loved piece of furniture.

HEIRLOOMING

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

This traditional cabinetry construction features a 1-1/2" wide face frame behind the door and drawer front. Regardless of the door style chosen, a portion of the frame will be visible when the doors and drawers are closed. Available on all Full Overlay and Partial Overlay door styles.
